

Avoid some strokes to avoid negativity in life!

By Dr. Na. Maghudeeswaran

Signature expresses one's identity and divulges a lot of information about the writer. The brain sends commands to the hand to write its own style, which is the reflection of the involuntary cells of the brain. Shape, size, formation of alphabets, strokes etc in the signature can modify one's prospects, either positively or negatively. It is generally observed that those who apply more Oval strokes face failure at their personal front and those applying more Tail Mark strokes face defeat or disgrace finally in their lives. Those who apply both Oval and Tail Mark strokes lose their name and fame, because of blunders, mistakes etc committed by them. Let us analyse here the signatures of a few celebrities with the above strokes and how they faced negativity in life.

Former President of USA—Mr. Richard Nixon

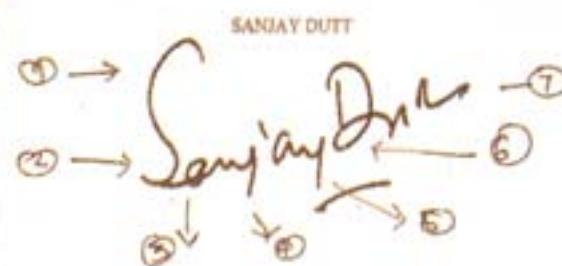

He had been changing the design of his signature over the years and finally applying it with a lot of Tail Mark strokes around 1979, when he was accused of malpractices in "Water Gate!"

Popular Film Producer of the South India, Mr. G. Venkateswaran

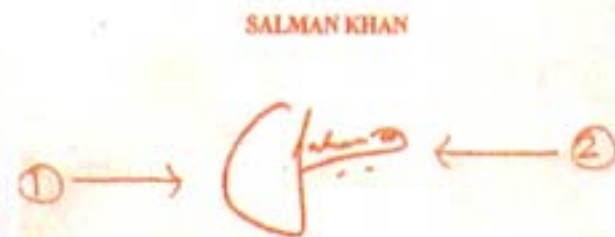

He committed suicide, when he seemed to be on top. Strong reasons were there for his down fall. Tail Mark strokes are seen.
